

Name: Mahmoud Said Zughbor
Email: mzughbor@gmail.com
Phone: +972-56-78-178-74

Professional identification...

My name is Mahmoud. 23 years old, born in Gaza, Israel.

I have experience in many things starting from (Recording and Video editing- Montage) to developing desktop applications. I use many programs like Premiere, Audition, After Effects, Illustrator and other 3D programs like Blender. Speaking of the other side in the coding world, I'm very passionate about Python scripts and projects. Besides studying Multimedia as my primary field, I have a growing passion for working as a web developer from the early days since I was 20 years old. That gives me the ability to develop plugins, maintain them and incorporate a variety of scripts to work together.

Education / Training...

- 2021- Nov, "Technical training in Wordpress development" within GSG _"Gaza Sky Geeks" 120H total.
