PREVIOUS WORK, WEBSITES HISTORY

List of latest websites I created years ago, please consider asking me about images gallery for each site or role I played, due to that reason a lot of clients after delivering project they do apply huge changes to their sites making it bad front pages or bad at performance or functionality, so consider asking about your desirable tasks you wanna accomplish according to my previous experience.

- <https://webfixup.com> (Creating Hosting WordPress Sites Company, back and front.)
- <https://sabbarstudio.com> (Social Media Marketing agency site using Elementor.)
- <https://dentalhome-clinic.com> (Creating Dentist Reservation Site.)
- <https://interludeksa.com> (Multi-language Site, Translation Site to Arabic / English only)
- <https://vastuaastrology.com> (Design Front End WordPress theme.)
- <https://wedti.com> (Creating Multi-language Learning Site using LMS tutor-Pro plugin)

EDUCATION

2017-2022 Bachelor in Multimedia and Web Development. [Islamic University](#) (Gaza, Palestine)

I studied a variety of subjects in my Bachelor of Multimedia and Web Development program at the Islamic University in Gaza, Palestine. These included:

- Web Development: I learned the fundamentals of web development, including HTML, CSS, and JavaScript.
- Multimedia: I studied the principles of multimedia, including video editing, audio editing, and graphic design. I also learned how to use Adobe Creative Suite and other multimedia software like Adobe Photoshop, Illustrator, and Blender.
- Databases: I learned how to design and manage databases. I also learned how to use SQL language, MySQL software, MySQL Workbench.
- Project Management: I learned how to plan, execute, and deliver successful projects. I also learned how to use project management tools like Microsoft Project and Trello.
- Entrepreneurship: I learned about the fundamentals of entrepreneurship, including business planning, marketing, and financial management.

In addition to these core subjects, I also took a variety of elective courses, such as Game Development, Mobile Development, and Artificial Intelligence.
